The Activity of constructing an Ontario Government Consolidated Office Building in Sudbury, on a 2-acre property at Larch and Drinkwater Streets, in the Civic Square Complex, via the Lease-Purchase Program,

be exempted from the application of the  $\operatorname{Act}$  pursuant to Section 30; and

Having been advised that the undertaking has the concurrence of the Ontario Government as stated in the Legislature by the Honourable William G. Davis on November 3, 1977 in a statement on the establishment of a Cabinet Committee on the economic future of mining communities, and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage, or interference with the persons and property indicated will occur:

- 1. The Crown will be interfered with because the 13 ministries expected to use the proposed consolidated office building will be interfered with because the number of present activities competing for the use of the existing facilities exceeds the available capacity and because the present situation forces many of these ministries to operate from a number of scattered offices resulting in inefficiencies in program delivery;
- 2. The other participants in the Civic Square Complex will be interfered with if the construction of the facility is delayed in that the building was designed as an integral part of the Civic Centre Complex which has been envisioned as the focus for revitalizing the core area; and

3. The public will be interfered with an damaged if the construction of the facility is delayed from its schedule in that economic benefits associated with construction related activities will not be available to the community;

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

- 1. I am advised by the Ministry of Government Services that the Municipality in which the undertaking is proposed to be located has confirmed that the municipal services are adequate to service the proposed facilities and the proposed use of the land is consistent with the official planning and zoning by-laws affecting the site;
- 2. The other buildings on the site at which the proposed facility will be developed were designed to incorporate the new building within the total complex. As such the completion of construction will also complete the development of the initial phases of the Sudbury Civic Square;
- 3. The activity of construction will infuse economic benefits into the Sudbury community; and
- 4. Substantial development of the project, such as site acquisition, site development and accommodation plans were approved by Management Board of Cabinet on January 30, 1973, well in advance of The Environmental Assessment Act.

This exemption is subject to the following terms and conditions:

1. That tenders for construction be awarded no later than December 31, 1978.

This order comes into force and has effect on and after the date upon which it is signed.

Dated at Toronto, this 7th day of April, 1978.

GEORGE R. McCAGUE, Minister of the Environment.

#### NOTICE OF MOTION

Take Notice that an application will be made on behalf of Canada Cartage System Limited, Hendrie & Company Limited, Maysart Trucking Limited, Peek Movers Limited and Truk-King Services Limited before the Ontario Highway Transport Board at its Chambers, in Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario, M5S 2T5, on such day and at such time as

the Board may direct for an Order revoking the decision of G. J. Norton, Esquire, set out in the Board's Certificate dated February 24th, 1978, wherein the Board granted the application, and directing a rehearing of the application by way of argument only before another Member of the Ontario Highway Transport Board on the following grounds:

- (a) The decision of the learned presiding Member was against the evidence and the weight of the evidence in the following respects:
  - (i) There was no evidence that the existing licensed carriers were not able to serve the Metropolitan Toronto extended cartage zone in an efficient competitive and economically viable manner;
  - (ii) There was no evidence of a need for general cartage service;
  - (iii) The evidence of the public witnesses was almost entirely limited to movements to their premises from sufferance warehouses located in the City of Mississauga and the Township of Vaughan. That evidence, at its highest, was sufficient to warrant the granting only of a Class 'D' public commercial vehicle licence for the carriage of goods from sufferance warehouses to the places of business of the public witnesses.
- (b) The decision of the learned presiding Member was wrong in law in that there was no finding of a failure of service on the part of the Respondents:
- (c) Upon such further and other grounds as Counsel may advise.

AND TAKE NOTICE that in support of the Motion, the original application will be read, the proceedings and the exhibits filed herein will be referred to and such further and other material as Counsel may advise and the Board permit will be referred to or read.

Dated at Toronto, this 20th day of March, 1978.
